Mixed-age: Progression of knowledge, skills and vocabulary

Kapow

# Introduction

This document gives an overview of the key knowledge covered in each knowledge strand of our French scheme of work (**Phonics**, **Vocabulary** and **Grammar**) and how this builds across the year groups.

For **Vocabulary** we have made the decision to focus on French vocabulary structures and key vocabulary on this document, rather than listing all the vocabulary used in a unit. This is because it is the structures which are progressive and able to be used in different contexts and therefore are more valuable for children to retain. Where we feel that the 'topic vocabulary' is particularly important for pupils to retain we have added this on in **blue**, but at times it may be that they only retain relevant vocabulary for themselves (e.g. food they love/strongly dislike; family members from their own families etc.)

It also shows how we would expect pupils to progress in their application of this knowledge when dealing with **Language comprehension** and **Language production** in order to meet the end of key stage attainment targets set out in the National curriculum.

Please see our [French: Long-term plan—mixed-age](#) for more information about the design of our French curriculum.

# How is the French scheme of work organised?

From the Ofsted research review: languages, we have identified three knowledge strands or 'pillars'. In each unit children will then draw upon this knowledge when comprehending and producing language to help them achieve the aims of the National curriculum.
